<u>RESPONSE</u>

Assistant Commissioner for Patents Washington, D.C. 20231

Dear Sir:

In response to the Office Action mailed June 24, 2002, please consider the following amendments and remarks with respect to the above-captioned application. A petition for a two month extension of time and fee are enclosed herewith. All pending claims have been reproduced for Examiner's ease of reference.

IN THE CLAIMS

Please amend the claims as follows:

Please cancel claims 6, 7, and 33-42 and add claims 53-71.

July 7

02-FC:1806

1. (Amended) A particulate composition for delivery to the pulmonary system comprising: particles comprising a saturated phospholipid and a polyvalent cation in an amount effective to increase the gel-to-liquid-erystal transition temperature of the particle compared to particles without the polyvalent cation, wherein the particulate composition is storage stable.
